Beauty

Star Treatment

You can barely schedule a dentist appointment, let alone manage your manicures, haircuts and eyebrow waxes. Get your life back in order at the recently opened Beauty Lab at LuxLash on Newbury Street. The one-stop spa is the brainchild of LuxLash founder Suzanne Cats and Edward Morgan of the Edward Beverly Hills salon. Its long list of services, including spray tans, pedicures, lash extensions and colorings, will take you from hot mess to hottie in half the time. Having three people primp you might feel weird at first... but you'll get used to it. **AMANDA KNORR**

BEAUTY BUZZ

Keep an eye out for the new Bliss Spa opening at the W Hotel this spring.
